

# The Intelli-System™ is Here...

With global resources rapidly diminishing, Unique Lighting Systems has made a commitment not only to conserve energy and raw goods, but also to bring value to the consumer. Our new Intelli-System does just that. With our new Intelli-Brite lamps, Intelli-Matic transformers, Intelli-Flex wire and Intelli-Hub Wiring System, you will now generate twice the benefits and twice the savings than that of a 12 volt system. Unique Lighting Systems Intelli-System combines the advantages of a line voltage system with the ease and safety of low voltage. The Intelli-System is an innovative way to design and install low voltage lighting. The Intelli-Hub Method of wiring combines design flexibility with efficiency, reduced material cost, labor reduction and energy savings. We are the first and only lighting manufacturer to make and promote these intelligent inspired and resource minded products.

## Benefits of an Intelli-System

- **Save up to 80% on Cost of Wire:** Compared to the cost of a traditional 12 volt system.
- **Transformer Efficiency:** The transformer runs more efficient. It can reduce electricity use by up to 20%.
- **Twice the Power, Twice the Efficiency:** Eliminate expensive heavy gauge 8/2 and 10/2 wire and consume less energy.
- **Voltage Drop:** The voltage drop with a 24 volt system is half compared to a 12 volt system.
- **Consistent Color Rendition:** The lumen output is more consistent with lower voltage loss between lamps.

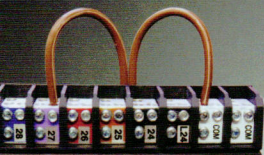

**ecoillumination™**  
Going Green Shouldn't Cost You Green

**SAVE MONEY WITH  
The Intelli-System**

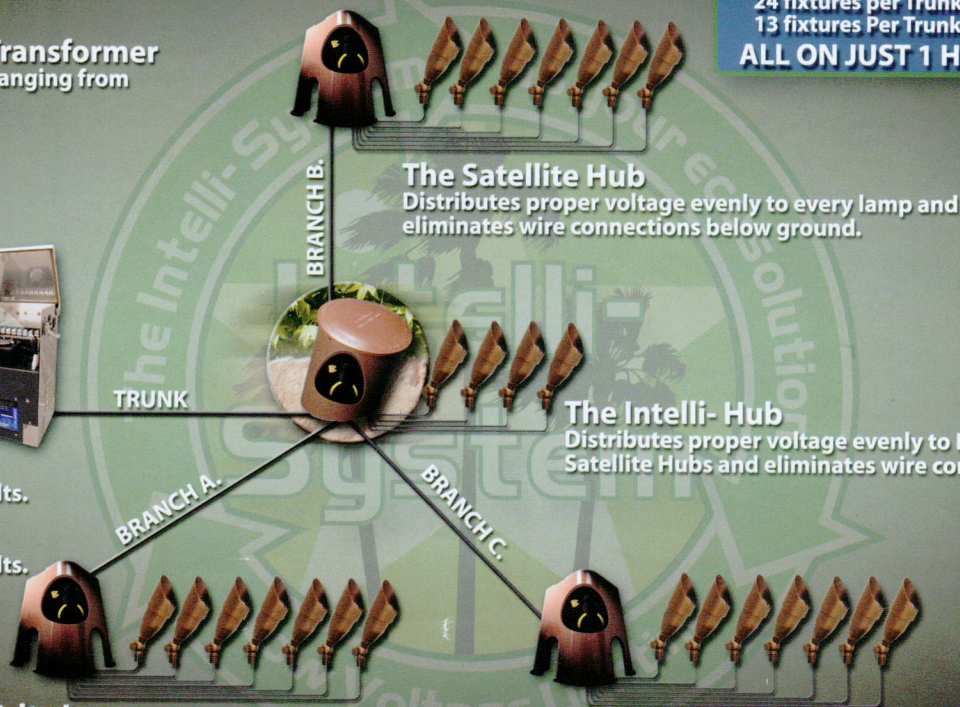

## NEW Intelli-System Wiring Method

Just Imagine this:  
90 fixtures per Trunk at 5 watts  
48 fixtures per Trunk at 10 watts  
24 fixtures per Trunk at 20 watts  
13 fixtures Per Trunk at 35 watts  
**ALL ON JUST 1 HOMERUN!**

**The Intelli-Matic Power Transformer**  
With independent voltage taps ranging from 24 to 30 volts.

**TRUNK**  
12/2 Intelli-Flex high wattage cable with 480 watt max. at 24 volts.  
Or  
14/2 Intelli-Flex high wattage cable with 345 watt max. at 24 volts.

**The Fixtures with Intelli-Brite Lamps**  
The fixtures complete the Intelli-System. All Unique fixtures come pre-wired from 25 feet.
